

100-foot folding containers used in the port of Hargesa

Overview

COLLAPSECON is the collapsible shipping container pioneering the future of global trade. Its practical and rigid design saves on space, cost and handling, and helps to significantly reduce industry emissions. As previously noted, the foldable container is now used at more than 60 depots and ports and on 15 shipping lines and growing in popularity all the time. "The shipping industry is typically very conservative," said Broekhuis. Looking for used Empty containers to purchase, look no further than with KLAUDIC GLOBAL SERVICES, a. Natural Southern gateway to Western European markets. At the crossroads of. COLLAPSECON is the next evolution of shipping containers – a fully automated collapsible container that will improve operational efficiencies, deliver economic savings and reduce environmental impact across the supply chain, all without requiring a fundamental change to the industry or global. The world's premier container ports chalked up a second successive year of muted volume growth during 2023, in a 12-month period ending with contrasting fortunes for the leading export and import hubs. Last year's combined throughput tally hit 690. These containers are made of high-density polyethylene (HDPE), a durable material that will protect your products throughout the duration of the container's life. DuraGreen® collapsible.
