

Automatic glue machine photovoltaic panel installation

Overview

The automatic glue machine for solar panel box mixes the two-component glue (glue A and glue B) in a certain proportion through air pressure control, and automatically applies or fills the part where the photovoltaic junction box and the wire are connected to achieve. The automatic glue machine for solar panel box mixes the two-component glue (glue A and glue B) in a certain proportion through air pressure control, and automatically applies or fills the part where the photovoltaic junction box and the wire are connected to achieve. Solar Module Frame Machine can install the aluminum frame and overflow glue. Inquiry NOW Will reply within 2 hours!

Automatic gluing & framing machine is used to install the aluminum frame and automatically overflow glue. Ooitech, One-stop Solution For Solar Panel Manufacturing Machine. Choose Your Planed Business, and this is. Our advanced Automatic Glue Dispensing System automatically applies glue evenly to frames, ensuring consistent bonding and improved production efficiency. Acting as a high-performance Glue Frame Integrated Machine, it minimizes labor costs and material waste in the manufacturing of solar modules. Powered by dyseo. High quality with competitive price.
