

Central Asian Five Countries Power Cabinet DC Power Supply for Residential Area

Overview

CASA-1000 is designed to facilitate electricity trade between the four participating CASA countries by developing transmission infrastructure as well as the commercial and institutional arrangements required to conduct this trade. One-Stop Energy Storage Solution, More simple, More efficient, More comprehensive, Providing you with the best service experience. It has multiple advantages such as safety, reliability, ease of use, and flexible adaptability. It can be widely used in application scenarios such as industrial parks. One cabinet per site is sufficient thanks to ultra-high energy density and efficiency. The eMIMO architecture supports multiple input (grid, PV, genset) and output (12/24/48/57 V DC, 24/36/220 V AC) modes, integrating multiple energy sources into one. Intelligent power generation: intelligent peak. DC panel used in large, middle and small power generating plant or substation, output DC source for the ON/OFF operation, relay protection, auto control, lighting tor high voltage switches at normal status or fault status. We offer a complete line of power supply cabinets for various applications and industries.
