

Disputes over photovoltaic panels on rural roofs

Overview

As of August 2025, we've crossed a major milestone: over 3,000 active cases. That's 3,000 homeowners standing up to lenders over unfair solar panel loans. Hundreds of these cases are already in arbitration, moving through discovery and scheduling. This fall will be extremely busy, with trials set. Solar panel conflicts typically involve disputes between homeowners, neighbors, and HOAs over aesthetics, shading, and installation restrictions in residential communities. Glare from a neighbor's roof, whether from new solar panels or reflective metal, can disrupt daily life and become a source of disputes between. Solar energy, which converts energy from the sun into thermal or electrical power, is rapidly expanding across America and the world. Solar energy can provide numerous benefits but, like most things, also has its share of drawbacks.
