

Egyptian Battery Energy Storage Equipment Company

Overview

AMEA Power is building Egypt's first battery energy storage systems to boost grid stability and increase the role of renewable energy in Egypt's energy mix. Egyptian Investment and Foreign Trade Minister Mohamed Farid met Scatec CEO Terje Pilskog on Tuesday, Feb. The meeting came a day after the company reached commercial operation on the first phase of its Obelisk solar project. Talks focused on expanding cooperation in renewable energy and green. Dubai, United Arab Emirates, 15 July 2025 - AMEA Power, one of the fastest-growing renewable energy companies in the region, is pleased to announce the successful commissioning of Egypt's first-ever utility-scaled Battery Energy Storage System (BESS). The company plans to build projects with a total capacity of 1,500MWh. Meanwhile, Norwegian developer Scatec ASA has signed a 25-year power purchase agreement (PPA) for a 1 GW solar array and 100 MW/200 MWh BESS in. This article explores how Egyptian energy storage battery companies are addressing critical energy challenges while creating opportunities for glo Egypt's energy storage sector is rapidly evolving, with battery technology playing a pivotal role in renewable energy integration and grid.

Article Content

Egypt: COD reached for first phase of the Obelisk project in Egypt

Scatec, a leading renewable energy solutions provider, has successfully reached Commercial Operations Date (COD) for the first phase of its 1.1 GW Obelisk solar and 100 MW/200 ...

Kyuden International's Solar and Battery Storage Project in Egypt ...

Kyuden International Corporation is pleased to announce that the large-scale solar power plant and battery energy storage system (BESS) project in Egypt has received a PFI Award 2025 on ...

Top 16 Battery Storage Companies in Egypt (2026) | ensun

Discover all relevant Battery Storage Companies in Egypt, including Spark Renewables and United Batteries Co.

Egyptian Energy Storage Battery Companies: Powering a Sustainable ...

This article explores how Egyptian energy storage battery companies are addressing critical energy challenges while creating opportunities for global partnerships.

AMEA Power Boosts Clean Energy in Egypt with New Battery Energy ...

AMEA Power has signed groundbreaking agreements to develop battery energy storage systems in Egypt. The company plans to build projects with a total capacity of 1,500MWh.

Egypt, Scatec Deepen Renewable Energy Cooperation as Solar ...

In January, Scatec signed a 25-year, dollar-denominated power purchase agreement with the Egyptian Electricity Transmission Company covering 1.95 GW of solar capacity and 3.9 GWh of ...

AMEA Power Successfully Commissions Landmark ...

The commissioning of this BESS project marks AMEA Power's first utility-scale storage project in North Africa, reinforcing the company's ...

Egypt set for 1.1 GWh of battery storage across three ...

Earlier this year, state-owned utility Egyptian Electricity Holding Co. held an expressions-of-interest tender for the design, construction and operation ...

Egypt Approves Solar and Battery Storage Mega Project

Egypt approves 4,720MW solar and battery projects with storage and local manufacturing partnerships to boost clean energy transition.

Scatec to bring live second phase of 1.1-GW Egypt project in summer

Norwegian renewable power company Scatec (OSL:SCATC) has achieved commercial operations for the first phase of its Obelisk solar-plus-storage project in Egypt, with the second ...
