

Estonian lithium-ion energy storage battery company

Overview

Eesti Energia is to build an energy storage device with a capacity of up to 53.1 MWh at the Auvere industrial complex in Estonia later this year, the company has confirmed. Skeleton Technologies is a leading manufacturer of energy storage solutions, specializing in supercapacitors and their innovative SuperBattery technology, which enhances energy density and addresses stability challenges. Their products are utilized by global OEMs across various sectors, including. The flagship battery storage project commenced operations on February 1, only days before cutting ties with the Russian power grid. Estonian state-owned energy company Eesti Energia has inaugurated the nation's largest battery energy storage facility at the Auvere industrial complex in Ida-Viru. Estonia has laid the cornerstone for what will become the largest battery park in continental Europe, a major step toward synchronising the Baltic power grids with Europe by 2025; the project, led by Evecon, Corsica Sole and Mirova, aims to bolster energy security and support Estonia's transition. State-owned utility and power generator Eesti Energia has completed and put into commercial operation the first large-scale BESS in Estonia.
