They have an automated system that ensures precision production. The company notes that this helps production stay on schedule since they never have to wait for parts or components from far awa...See more on allamericanmade Wikipedia

Solyndra - Wikipedia

OverviewTechnologyHistory

Solyndra designed, manufactured, and sold solar photovoltaic (PV) systems composed of panels and mounting hardware for large, low-slope commercial rooftops. The panels perform optimally when mounted horizontally and packed closely together, the company claimed, covering significantly more of the typically available roof area and producing more electricity per rooftop on an annual basis than a conventional panel i...

China's solar companies building factories in US

Several of China's largest solar power companies are building factories in the United States, aiming to serve the growing US solar market. At ...
