

Fire pump inverter solar remote control

Overview

In this post, I'll share insights on how you can remotely monitor your solar pumping system, focusing on the critical role of solar pump inverters equipped with remote monitoring modules. This isn't just technology; it's your gateway to unparalleled operational. Shakti's Simha Universal Drive is a unique product designed, developed and manufactured in India. SIMHA series are three-phase variable frequency drive compatible with solar power system. SIMHA drive can convert the DC generated by solar panels into AC, which is in accordance with current required. Check each product page for other buying options. GoPower GO Power! What does Common Trouble actually mean?

Pump is on, is it flowing water?

Remaining water supply in a storage tank / maintaining adequate suction pressure on a city supply?

QUESTIONS?

Our Wireless Switch Systems simply replaces the control wire that would normally connect your float switch or pressure switch to your pump starter, eliminating the need to trench or purchase large amounts of expensive wire. Suitable for photovoltaic drought, desert greening, and agricultural irrigation. In addition, we have developed controllers that meet various local standards.
