

Guyana power investment energy storage power station

Overview

The project consists of five independent solar power plants distributed across three administrative regions of Guyana, with a total installed capacity of 18 MW and an energy storage capacity of 12 MWh. See how pivotal investments—from government initiatives to major foreign direct investment—are building a reliable, secure, and prosperous energy future for Guyana. The first completed and commissioned station—Onderneeming Station—is the largest among the five. LNDCH4 Guyana is pleased to announce the arrival of the Backup Battery Storage System (BESS) which landed at the John Fernandes wharf today. The order was booked with Wärtsilä in December 2019. The Inter-American Development Bank (IDB) and Norwegian Agency for Development Cooperation are investing up to US\$83.3 million in eight solar PV projects in Guyana with 34MWh of.
