

High-efficiency outdoor telecom enclosures used in weather stations

Overview

Each weatherproof outdoor enclosure is rated NEMA Type 3, 4, 5, or 6 and undergoes rigorous field testing to ensure reliability in demanding outdoor environments. Whether facing desert heat, arctic cold, coastal humidity, or industrial dust, these telecom boxes maintain their. When your network infrastructure demands reliable outdoor protection, American Products delivers weatherproof telecom enclosures engineered for performance and built to last. Learn more! IP55 Rated | 24U | AC110V or. These telecommunications devices are typically quite sensitive and need outdoor telecommunications enclosures to protect them. These outdoor enclosures are made from rugged materials such as polycarbonate or stainless steel that safeguard them from environmental hazards. They have adjustable rack sizes and spacing, a 3 and 4-point locking system, and solar caps to manage heat loads. Charles Universal Broadband Enclosures (CUBE) are constructed to withstand the elements and provide superior protection for active electronics in all environments.
