

## How much does aluminum cost for photovoltaic brackets

### Overview

Bracket Material: Aluminum brackets last longer (25+ years) but cost \$0. Local Regulations: Permit fees vary wildly – from \$150 in Arizona to \$800 in California. ProteaBracket is the most versatile exposed-fastened metal roof attachment solution on the market, fitting most trapezoidal sheet profiles with and without intermediate insulation. It features an adjustable attachment base and multiple solar module attachment options (illustrated below) to. Check each product page for other buying options. Find the perfect fit for your RV, boat, or off-grid power needs. Prices swing like a pendulum in a grandfather clock. For example, if your solar system cost \$10,000, the racking system portion would be about \$1,000 of the total cost. “The bracket system accounts for 12-18% of total installation costs but directly impacts long-term.
