

Jinko 595w photovoltaic panel size

Overview

It features a monofacial design with 156 half-cut cells and a dimension of 2465mm x 1134mm x 35mm. The panel has an anti-reflection coating, tempered glass, and an anodized alloy frame. The specifications include STC values for maximum power output (595W), voltage (45.29V), and. Better light trapping and current collection to improve module power output and reliability. High salt mist and ammonia resistance. 0 technology has better reliability. The main difference of the solar panel price is between Tier 1 Solar Panel and not Tier 1 Solar Panel. If you order the mainstream solar panel --- cell size 166*166mm or 182mm*182mm (210*210mm will soon becoming popular), cell number 54pcs, 60pcs, 72pcs, watt :365-670W), you can get the lower price. To better ensure the safety of your goods, professional, environmentally friendly, convenient and efficient packaging services will be provided. Built with N-type mono-crystalline technology, it delivers exceptional performance for utility-scale, commercial, and residential. See the table below for available information we have about Jinko Solar Co Ltd JKM595N-72HL4-BDV solar panels.
