

Land acquisition agreement for solar-powered communication cabinet inverter

Overview

Pursuant to the terms and conditions of this Agreement, Seller shall be obligated to complete certain Conditions Precedent, Project Milestones and other requirements with respect to the Projects as a condition to the payment by Buyer to Seller of the Purchase Price for each of the Projects. Seller shall be responsible for the design, installation, operation & maintenance, testing of the plant and equipment and for meter reading from solar meter, inverter or RTS projects, failing which the vendor is liable for blacklisting from participation in the govt. project/ scheme and other penal. Photovoltaic grid-connected cabinet is a distribution equipment connecting photovoltaic power station and power grid, and is the total outgoing of photovoltaic power station in the photovoltaic power generation system, and its main role is to act as the dividing point between the photovoltaic power. What is a mobile base station funding agreement?

Under the funding agreement, the Government made contribution payments to the funding recipient on the achievement of certain milestones for each mobile base station, which were to be negotiated between the Government and the funding recipient during the Term, and Seller shall sell to Purchaser, all of the electricity generated by the System during the Term (as defined in Section 2(a)). Electricity generated by the System shall be delivered to Purchaser at the Delivery point.
