

Latest news on Spanish energy storage system companies

Overview

The final resolution of Spain's FEDER programme redraws the country's storage map. Total funding was reduced, major players such as Aquila Capital exited the scheme, while new large-scale projects from RWE and Alter Enersun entered the portfolio. Spanish company FRV aims to hybridize its Spain-based solar portfolio and increase its battery energy storage (BESS) capacity in the country. Fotowatio Renewable Ventures (FRV) is planning to hybridize its Spanish solar. Spain's Ambitious Energy Storage Initiative Spain is charging ahead with one of Europe's most ambitious energy storage initiatives! The country's groundbreaking battery storage program has exceeded its original €700 million budget, growing to €840 million (\$964 million) to support a massive storage. Alpiq has acquired the advanced-stage Navaleo project in Castilla y León, adding 535MW of long-duration storage capacity to Spain's grid and marking its first large-scale hydropower investment outside Switzerland, with commissioning targeted for the early 2030s. 14 GWh under a European Regional Development Fund program. Article Content

FRV To Develop 1.2 GW/5 GWh Battery Energy Storage Portfolio In ...

Fotowatio Renewable Ventures (FRV), part of Jameel Energy, is expanding its presence in Spain with a major battery energy storage pipeline. The company is developing more than 1.2 GW ...

Naturgy wins grants for 100 MW/359 MWh of BESS projects in Spain

Spanish utility Naturgy Energy Group SA (BME:NTGY) has secured EUR 39 million (USD 46m) in state grants for seven new battery energy storage systems (BESS) in Spain, raising the number of battery ...

Who wins Spain's €818m storage programme? The companies behind ...

The final resolution of Spain's FEDER programme redraws the country's storage map. Total funding was reduced, major players such as Aquila Capital exited the scheme, while new large ...

Spain provisionally awards €839 million to 11 GWh of ...

Spain's Instituto para la Diversificación y Ahorro de la Energía (IDAE) has issued a provisional funding proposal for the country's first call for ...

Alpiq Invests in Pumped Hydro Storage in Spain | Alpiq

Lausanne – Alpiq has acquired the Navaleo pumped hydro storage project in Castilla y León, Spain. Developed by Erbienergía, a leading renewable energy company with deep roots in the ...

Energy storage is growing in Spain with 3,400 MW of capacity

Spain authorizes more than 3,400 MW in energy storage, marking a rebound after the blackout and consolidating solar and battery hybridization. Energy storage has experienced an ...

FRV's hybridization strategy targets 5 GWh of standalone Spanish BESS

Spanish company FRV aims to hybridize its Spain-based solar portfolio and increase its battery energy storage (BESS) capacity in the country. The developer says its projects are in an ...

Spain's €700M Battery Storage Expansion: 8.9GWh Funded, Market ...

Spain's battery storage program expanded to €840M, funding 143 projects totaling 8.9GWh. Learn how this initiative creates opportunities for solar-storage hybrids and boosts grid ...

Alpiq acquires 535MW Navaleo pumped storage project in Spain

Swiss energy company Alpiq has acquired the Navaleo pumped hydro storage project in Castilla y León, Spain. The project, originally developed by Spanish renewable energy company ...

Iberia: Why are there no batteries in Spain?

Spain's battery energy storage market is at a critical point. Despite being a leader in renewable energy deployment in Europe, the country has only 18 MW of ...
