

Maldives High-Efficiency Energy Storage Equipment Project

Overview

Supported by the ADB through the Accelerating Sustainable System Development Using Renewable Energy (ASSURE) Project with a grant of US\$41.5 million for the project, the tender aims to provide BESS and energy management systems (EMS) across 18 islands in the Maldives and. On July 13, 2023, Sino Soar Hybrid (Beijing) Technology Co. and its partners successfully won the bid for the 40MWh BESS EPC project in Maldives. Through professional design capabilities. Under the Accelerating Renewable Energy Integration and Sustainable Energy (ARISE) project, supported by the World Bank, Maldives is seeking contractors for installation of 40 MWh capacity Battery Energy Storage Systems (BESS), across 18 electricity grids representing 19 islands/cities. A. The Maldives is home to more than half a million people, who live across its hundreds of islands, most of them relying on expensive and polluting imported diesel for their electricity. Image: wikimedia user Nevit Dilman. The deadline for expressions of interest is Dec.
