

## Model of lead-acid battery energy storage cabinet for solar-powered communication cabinet

### Overview

Integrates solar input, battery storage, and AC output in a compact single cabinet. Offers continuous power supply to communication base stations—even during outages. Remote diagnosis, performance tracking, and fault alerts through intelligent BMS. AZE can provide a wide selection range of outdoor integrated cabinet, battery cabinet and telecom equipment cabinet, which are widely used in wireless communication base station, electricity, radio station, solar battery, television field, 5G base industries, including the new generation of 4G system. Engineered for use with most type of battery terminal models, these cabinets can fit a wide variety of applications. It is. One of our recent projects with a leading U. solar engineering company perfectly illustrates how E-abel helps partners expand their offerings through tailor-made solar battery storage cabinets, designed to house both inverters and battery systems.
