

Myanmar energy storage regulations

Overview

Ministry of Energy issued the Basic Requirements for Petroleum Products Business License (Storage Tank Station). The following form/s are used in this procedure. This website has been built with the support of USAID. Myanmar's power sector remains regulated by a state-owned buyer model, with two key offtaking government entities under the MOEP (formerly the MOEE): the Electric Power Generation Enterprise (EPGE), which operates and plans the Myanmar National Grid System, buys electricity from both public and. The Myanmar energy market started legal reform in 2011, at a time when the country opened up to foreign investment after decades of isolation. An increase in optimism in Myanmar's economy is largely attributed to its abundant untapped resources, particularly oil, hydropower and natural gas. Two-thirds of the population is not connected to the national electricity grid, and 84 percent of rural. The Department of Mines ("the Department ") under the Ministry of Natural Resources and Environmental Conservation (" MONREC ") has issued a reminder on the renewal of storage licenses for petroleum and petroleum products. comparison with non-storage options) Identify relevant use-cases for storage Monitor & remove non-economic barriers for use- cases Setup/adapt remuneration structure for relevant use-cases Timescale Short-Term Flexibility Medium-Term Flexibility Long-Term Flexibility Sub-.
