

New Zealand industrial energy storage cabinet supplier

Overview

Electrical enclosures, data and server racks and cabinets for Industrial, Data Centre and home applications in New Zealand. IP55 and IP66. Large-scale industrial energy storage systems play a crucial role in various applications, including load management, power system recovery capability, backup power/UPS (Uninterruptible Power Supply), energy time-shift (arbitrage), and emergency power supply. These systems help to ensure grid. At S. P, we offer a comprehensive range of stainless steel cabinets, available in a variety of standard sizes or custom-built to meet your exact specifications. Whether you require a compact enclosure or a complex system integration, our in-house design and fabrication team can deliver a solution. Taspac Energy is NZ's premium supplier of Solar PV and Energy Storage Solutions. 100% Kiwi owned, Taspac was founded in 2014 with a very simple goal – to provide best-in-class renewable energy solutions to New Zealand solar installers and electricians, backed up with a high level of local sales. At PFS, we build electrical cabinets that are made to measure, engineered to last, and built right here in Hamilton, New Zealand, and shipped nationwide. As a 100% family- owned business, B&R champions the virtues of quality, service and value.
