

New solar bracket profile

Overview

These newest metal roof solar brackets utilize a unique clamping system that eliminates the need for roof penetrations, thereby preserving the metal roof's warranty while reducing installation time by up to 60 percent compared to traditional mounting methods. The Protea Bracket fits most trapezoidal sheet profiles, including pre-assembled foam core panels (IMPs - Insulated Metal Panels). These systems are engineered for durability, weather resistance, and optimal panel positioning to maximize energy generation. Depending on the installation site and. A versatile solar attachment bracket with top rail, side rail, and PV kit attachment options. U-Builder® combines smart design tools with integrated support to help you build accurate, permit-ready plan sets quickly. It keeps your projects organized and on track from.
