

# Off-grid solar power distribution cabinet for water plants

## Overview

Designed for outdoor deployment, the cabinet features weather-resistant construction, efficient ventilation or air conditioning, and options for battery and DC distribution integration. With robust protection (IP55/IP65), it ensures reliable operation in remote, off-grid . AZE's all-in-one IP55 outdoor battery cabinet system with DC48V/1500W air conditioner is a compact and flexible ESS based on the characteristics of small C&l loads. The commercial and industrial (C & I) system integrates core parts such as the battery units, PCS, fire extinguishing system. OffGridBox is a project design and engineering company that provides renewable energy and clean water to remote communities around the world, with a focus on Energy for Health. Solar power is a great option for properties that are well off the grid, like farms and rural homes. However, to take full advantage of this clean energy source, you'll need a control cabinet to manage the incoming and outgoing energy. The necessary Charge Controllers and Inverters are mounted, along with the Circuit Breakers and wire termination point on an aluminum panel.
