

Off-grid supplier of microgrid energy storage battery cabinets

Overview

Topband is a leading energy storage cabinet supplier, offering OEM 50–500 kWh indoor and outdoor enclosures with air- or liquid-cooled options—ideal for telecom, commercial, microgrid, and off-grid projects. Discover AZE's advanced All-in-One Energy Storage Cabinet and BESS Cabinets – modular, scalable, and safe energy storage solutions. Featuring lithium-ion batteries, integrated thermal management, and smart BMS technology, these cabinets are perfect for grid-tied, off-grid, and microgrid. An energy storage cabinet, also known as a battery cabinet, is a device that can convert the electrical energy of a battery into alternating current to supply to a load. Seamlessly switching between grid and off-grid modes, it allows for flexible configuration of photovoltaics, batteries, diesel. Huijue Group's energy storage solutions (30 kWh to 30 MWh) cover cost management, backup power, and microgrids. Engineered in our China factory hub to meet UL, CE, and TUV international standards — ready for any market without re-certification delays.
