

## Outdoor base station appearance customization solution

### Overview

SageRAN Unity™ 5G Integrated Base Station leverages the NXP LX2160A platform, featuring low power consumption, easy customization, and high integration capabilities. Taking into consideration the highly challenging environments where new 5G telecom outdoor base stations will be built and the demand for long-term stable operation, Apacer starts from an analysis of the customer's existing platforms and then provides customized services and complete SSD and memory. Outdoor LTE base station with dual-carrier support and built-in high-gain omni antennas for private network deployments in Bands 40 and 48. This product is designated an Industrial-class booster by the FCC and may only be sold as part of a custom-designed solution. We plan on reaching our vision through superbly designed and manufactured products, very competitive. This product is based on the advanced multi-core ARM and FPGA scheme, and adopts the integrated design of 5G BBU and RRU to realize the complete 5G NR wireless access network function, which can quickly and quickly establish a 5G wireless network with large bandwidth, low delay and high reliability. CableFree offers the Emerald range of 4G & 5G LTE Base Station and core EPC products featuring advanced cellular technology. CableFree Emerald 4G. A Huijue outdoor cabinet is a high-performance enclosure designed to protect telecom, networking, and power equipment installed outdoors. Built with robust materials and advanced environmental protection features, these cabinets safeguard sensitive systems from: Outdoor cabinets are essential for.
