

Outdoor solar power hub field prospects

Overview

On this page, you can explore our database of planned solar projects in the US. China continued to dominate the global market, representing ~60% of 2024 installs, up 52% y/y. At the end of 2024, global CSP capacity reached. Prospect14 brings extensive renewable energy development experience to growing solar markets around North America. WHY WORK WITH PROSPECT14?

Prospect14 targets solar projects with short timeframes and few hurdles to completion. solar market in 2025 is characterized by record installation growth coupled with significant market headwinds and shifts. As of September 2025, deployment numbers are soaring to new highs, yet industry players also face challenges like policy uncertainty, financing hurdles, and supply. Global solar installations reached nearly 600 GW – an impressive 33% increase over the previous year – setting yet another record. Solar accounted for 81% of all new renewable energy capacity added worldwide.

Article Content

Planned Solar Projects in the United States

On this page, you can explore our database of planned solar projects in the US. Each month, we track projects in development and update our list of the largest ...

Homepage

By partnering with Prospect14, landowners can monetize their land quickly and easily, and retain long-term ownership for future generations. Prospect14's team has extensive renewable energy ...

Solargis Prospect

Solargis Prospect provides global solar, meteorological, and environmental data to estimate solar yield and optimize photovoltaic project performance during pre-feasibility stages.

Spring 2025 Solar Industry Update

As the energy crisis fueled by Russia's invasion of Ukraine has subsided, demand for residential solar systems in the EU has declined and several residential solar incentive schemes ...

Solar Market Insight Report Q3 2025

Strong demand for new energy supply and rising power prices strengthen the market fundamentals for new solar projects in the long term. Overall, our low case is 18% lower than our ...

2026 Renewable Energy Industry Outlook | Deloitte ...

Beyond utility-scale wind and solar, phaseouts are reshaping other technologies. The residential solar 25D credit sunsets after 2025, pushing installers toward ...

Solar Futures Study

As solar deployment grows, engagement with local communities becomes increasingly important. Solar deployment, especially on the distribution system, can bring jobs, savings on electricity bills and ...

Global Market Outlook for Solar Power 2025-2029

Across all regions, developing a skilled workforce and setting ambitious solar and storage targets are essential tasks. In these times of political uncertainty, low-cost solar power could turn into ...

U.S. Solar Market Trends 2025 – Record Growth & Risks

In this analysis, we examine the latest trends in installations, costs, and market dynamics, providing solar businesses, developers, and investors ...

World's Largest Solar Farms 2025: Complete Guide To Mega Projects

Discover the world's largest solar farms in 2025. Complete rankings, capacity data, locations, and analysis of mega solar projects transforming global energy.
