

Qu solar panel manufacturer

Overview

Headquartered in Kitchener, Ontario, the company manufactures solar PV modules, provides battery energy storage solutions and develops utility-scale solar power and battery energy storage projects. Shawn Qu founded Canadian Solar in 2001 in Guelph, Ontario. QE Solar is a leading national Operations and Maintenance (O&M) provider for renewable assets, known for an owner's mindset in delivering consistent quality and service to clients with a sense of urgency because we know maintenance issues impact the bottom line. For over a decade, the team at QE. The US invented the technology and once dominated its production, but over the past two decades, government subsidies and low costs in China have led most of the solar manufacturing supply chain to be concentrated there. The country will soon be responsible for over 80% of solar manufacturing. Canadian Solar closely examines our supply chains to ensure goods imported are not mined, produced or manufactured, wholly or in part, with prohibited forms of labor, i., slave, convict, indentured, forced or indentured child labor. Providing homeowners the products and solutions necessary to take control of. is a national COMMERCIAL SOLAR company providing a myriad of services from consulting to complete project development & management.
