

Rooftop rental for solar installation

Overview

The Rent-a-Roof scheme lets people who can't otherwise afford solar panels gain access to them, through installers who will setup solar panels on roofs for reduced prices. Installers can then sell any excess electricity generated back to the grid. Technically, they're not paying rent for your roof, because you'll get the. The Rent-a-Roof scheme remains a good option if you cannot afford solar panels or don't want to take out a loan. Unfortunately, so few installers now offer the scheme that purchasing or taking out a loan for solar panels is. All revenue generated from selling excess energy back to the grid will go to the installer. You will not make any money directly from Rent-a-Roof, but you will still save money. Most solar panels last around 25 years, so we'll. Even though Rent-a-Roof is nowhere near as popular as it was a few years ago, it's still a great option for people who can't afford to buy solar panels. Buying a house with Rent-a-Roof solar panels could lead to mortgage complications. For example, if the lease includes maintenance cost obligations, or if there are certain access rights granted to the installer, a mortgage.
