

Saint Lucia electric vehicle adoption

Overview

Since 2015, Saint Lucia has been a regional trailblazer in EV policy, becoming one of the first OECS member states to introduce incentives for electric vehicles—despite limited model availability at the time. This project will further build on Governments' previous efforts to decarbonize the transportation sector by use of electric vehicles, as seen through the addition of three EVs to the Government fleet in 2017. The EV Lucian Car Show and Trade Expo will be held on Saturday, November 15, 2025, from 9 a. However. Castries, December 19, 2024 – St. The new EV chargers are strategically installed across the island to. Electric vehicles (EVs) are vehicles that are powered by electricity instead of traditional internal combustion engines (ICE). Charging Infrastructure: The. It's unlikely that Saint Lucians will ever see Elon Musk cruising around Castries in a Tesla, but electric vehicles will be making their way onto the island's roads in the near future under a new US\$ 33mn initiative that aims to transform transportation. The Global E-Mobility Program hopes to.
