

Serbia solar Energy Storage Company

Overview

An implementation agreement is in place between Serbia's Ministry of Mining and Energy, utility company Elektroprivreda Srbije (EPS) and a consortium of Hyundai Engineering and UGT Renewables for six new solar plants totalling 1 GW. Up to 200 MW of battery storage will be developed. RP Global is a developer and independent power producer (IPP) specializing in solar PV, wind, hydro, and storage projects across Europe and Latin America. The company leverages over 40 years of experience in the renewable energy sector, focusing on developing, operating, and investing in projects. Now there are plans in place for UGT Renewables and Hyundai Engineering to provide a series of self-balanced utility-scale solar projects bringing reliable, renewable energy to every corner of Serbia. As a market leader in solar energy, we provide comprehensive solar power plant solutions for both grid connection and self-consumption. According to the IPP, the agreement marks the beginning of a structured growth will require more renewable energy. Chinese companies are dominant in the sector, he added.
