## Overview

In this report, we highlight the top energy storage stocks to watch—curated for their exposure to the grid-scale buildout and long-duration energy storage (LDES) innovations. If the last decade was about mastering renewable energy generation, the next will be about. First Solar (FSLR -1.44%) is a global leader in developing solar energy solutions. One thing that sets First Solar apart from other solar panel makers is its focus on manufacturing a proprietary, advanced thin-film module. The company's solar modules use cadmium telluride to convert sunlight into electricity. First Solar is the world's. While most investors may think of photovoltaic cell manufacturers as the typical solar stocks, Enphase Energy has made a name for itself by specializing in semiconductor products known as “microinverters. The landmark tax-and-spending legislation signed into law by President Donald Trump on July 4 changed a lot of policies and tax incentives.
