

Solar battery cost south australia

Overview

The average solar battery price (installed) in Australia in 2025 is sitting between \$800 and \$1,200 per kWh. Installers upload their live price, product and warranty data into Solar Choice's platform so that they can be viewed and compared by local customers seeking to get a quote. Below are installed prices for some of the most popular solar batteries in Australia: *These prices don't include a hybrid inverter. With many homeowners seeking increased solar, lower reliance on the grid, and preparing for rising energy prices, questions concerning what a solar battery in Adelaide will cost are now a hot topic. Plus, we also work with Sungrow and Goodwe solar batteries. Get a custom quote ^Prices. The federal government's Cheaper Home Batteries Program provides approximately \$302/kWh in rebates. The City of Adelaide council offers an additional \$1,000 bonus for battery installations within specific postcodes.
