

South America's new energy storage cabinet manufacturer

Overview

Leveraging Brazil's resource endowment and industrial characteristics, TWS Technology prominently featured its flagship products – the ProeM series liquid-cooling energy storage cabinet and the PowerCore liquid-cooling energy storage container. By comprehensively applying the complementary advantages of energy storage, wind power, photovoltaics and diesel power generation, we can achieve optimal energy allocation, enhance regional energy self-sufficiency, reduce the construction and maintenance costs of traditional distribution systems. From August 26 to 28, TWS Technology made a significant appearance at the Smarter E South America in São Paulo, Brazil, showcasing its core energy storage products and customized industry solutions. Our range of smart string PV inverters has a capacity from 0.75kW to 253kW, providing the perfect match for your solar energy needs. Growatt's 'Solar + Storage'. The LZY solar battery storage cabinet is a tailor-made energy storage device for storing electricity generated through solar systems. Constructed with long-lasting materials and sophisticated technologies inside. Multi-dimensional use, stronger compatibility, meeting multi-dimensional production and life applications. High integration, modular design, and single/multi-cabinet expansion. Zero capacity loss, 10 times faster multi-cabinet response, and innovative group control technology. Meet various industrial.
