

Uninterruptible Power Supply Agent in Benin

Overview

IDL Africa Technologies provide Supply, installation, Maintenance and Support of variety of UPS models and sizes. We are specialized in design of parallel redundancy solutions and other mission critical requirements. An uninterruptible power supply (UPS) typically costs between \$50 and \$10,000+, depending on capacity, type (standby, line-interactive, or online), and features. Entry-level models for home use start at \$50-\$200, while enterprise-grade systems with high wattage and extended runtime exceed \$5,000. In Benin, where power outages average 8-12 hours monthly, families and small businesses increasingly rely on home battery storage. A UPS is typically used to protect hardware such as computers, data centers, telecommunication equipment or other electrical equipment where an unexpected power disruption could cause injuries, fatalities, serious business disruption or data loss. IDL Africa Technologies provide Supply. We proudly serve a global community of customers, with a strong presence in over 25 countries worldwide—including Poland, Germany, France, United Kingdom, Italy, Spain, Netherlands, Sweden, Norway, Denmark, Finland, Czech Republic, Slovakia, Hungary, Austria, Switzerland, Belgium, Ireland.
