

Utility-scale solar rome

Overview

Explore utility-scale solar projects in Italy for funds and professional investors: RTB, late-stage and opportunities with documentation. Milan (Italy), 04 September 2025 – Enfinity Global Inc., a leading renewable energy company, today announced the successful financial close of €316 million for the construction of eight utility-scale solar power plants in Italy. With a combined capacity of 276 MW, the projects are strategically. Join industry leaders, policymakers, and innovators at the leading C-suite & senior-level international gathering for the Italian utility-scale PV & BESS market. This summit takes place on July 9, 2026, in Rome at the Parco dei Principi Grand Hotel & SPA. This summit focuses on the evolving landscape of Italy's utility-scale PV and BESS market, offering insights into financing, policy, and market. Discover how Italy's latest policies and auctions are driving utility-scale solar and battery storage projects to meet ambitious 2030 targets. What's next for BESS investors?

Italy is clearing space for solar and BESS as gas plants are gradually being phased out. The amount of electricity that can be produced varies greatly throughout the year.
