

## Vatican s new solar panel prices

### Overview

Vatican officials have estimated it will cost under 100 million euros (\$114 million) to develop the solar farm, and that once it is approved by the Italian parliament, the contracts to do the work could be put up for bids. ROME (AP) — Italy agreed Thursday to a Vatican plan to turn a 430-hectare (1,000-acre) field north of Rome, once the source of controversy between the two, into a vast solar farm that the Holy See hopes will generate enough electricity to meet its needs and turn Vatican City into the world's first. ROME (AP) — Italy agreed Thursday to a Vatican plan to turn a 430-hectare (1,000-acre) field north of Rome, once the source of controversy between the two, into a vast solar farm that the Holy See hopes will generate enough electricity to meet its needs and turn Vatican City into the world's first. The future installation would be projected to “ensure, not only the power supply of the radio station existing there, but also the complete energy support of Vatican City State,” he wrote. Fast forward to 2025, and the project is completed. The agreement, signed on 31 July by Vatican foreign minister. From 20 December, official inauguration day – and in perfect timing to receive the thousands of faithful and visitors who will flock to the Eternal City for the opening of the Jubilee Year – the glass “roof” of the Vatican Museums' “ Courtyard of the Corazze ” entrance will unveil its new green and. With the Apostolic Letter “Fratello sole,” issued motu proprio, Pope Francis provides for the construction of an agrivoltaic plant in the extraterritorial zone of Santa Maria in Galeria, where Vatican Radio maintains antennas for digital broadcasting. By Christopher Wells Highlighting the need “to.
