

Warranty period for finished photovoltaic brackets

Overview

Material Warranty (10-25 years): Covers corrosion and manufacturing defects. Watch for exclusion clauses about “atmospheric conditions” – a sneaky way some manufacturers avoid coastal area claims. Workmanship Warranty (2-10 years): The installer's promise they didn't botch the. When investing in solar energy systems, the warranty period for photovoltaic (PV) brackets often becomes a make-or-break factor. But here's the kicker— most buyers don't realize warranty terms vary wildly between manufacturers, ranging from 10 to 25 years according to the 2024 Global Solar. Subject to the terms here eof, OMCO Solar LLC, an Arizona limited liability company (“OMC CO”), warrants to the original purchaser (“Purchaser”) that the PV Panel Mounting Structure delivered (the “Product”) shall be free from material defects in materials and workmanship. This means you can count on your panels to produce a certain amount of energy for the long haul. Generally, manufacturers promise that degradation rates won't exceed 0.
