

Who should I ask to install the photovoltaic panels

Overview

A certified solar panel installer is the best pro to install your system. A solar panel installation contractor is the pro who installs solar panels and gets your system running. Does your homeowner's association or planning/zoning department have laws against putting solar panels on the roof or in the yard?

What prevents a neighbor's building from shading my system?

How much will my home value increase?

- Ask local qualified appraisers. Will my real estate taxes go up?

- Solar panels, also known as photovoltaic cells, absorb energy from the sun, convert it to electricity, and then power items plugged into a wall outlet. Many homeowners can save money on utility bills and lower their carbon footprint by opting for solar panels. If there are trees near your home that create excessive shade on your roof, rooftop panels may not be the most ideal. Switching to solar power is one of those ideas that sounds great in theory: cut down your energy bills (especially in winter!), reduce your carbon footprint, and tap into the endless power of the sun. But the reality can feel a bit overwhelming. Between calculating your energy savings and. Be sure to know who will install the panels. Installation costs depend on how much electricity you use.
