

Wind power generation kk system

Overview

The Kitepower team remotely operates the system allowing the crew to continue tasks uninterrupted. When integrating Kitepower in combination with batteries, diesel generators can be switched off. We enable renewables to electrify societies, and drive industrial efficiency. Building on an established legacy across wind and industrial markets, we deliver proven technology that supports renewables and energy-intensive industries including power generation, construction, mining, rail, defence. We specialise in electrical systems for renewables and offer our customers solutions that lower costs and maximise performance. KK Wind Solutions has been a leader in the wind industry since its infancy in the 1970s. We partner with Bonus Energy, later to become Siemens Wind Power, becoming sole supplier of control systems.

Article Content

kk-electronic

Reducing the cost of energy is a key driver for the wind turbine industry. kk-electronic has risen to the challenge by developing new technology to allow ...

KK Group

With more than 45 years of experience in the wind industry and technologies installed in 120,000+ turbines worldwide, the company delivers advanced ...

Kitepower Airborne Wind Energy

Mobile, temporary and renewable wind energy generation on the construction site. The Kitepower team remotely operates the system allowing the crew to continue ...

Wind Turbine Controller: KK Wind Turbine Component ...

Our team of expert KK wind turbine component suppliers is ready to provide the technical support and repair services you need to maximize the performance ...

A leading partner in electro-mechanical systems

KK Wind Solutions has been a leader in the wind industry since its infancy in the 1970s. In fact, 70 percent of the world's installed offshore capacity is operating with our solutions.

KK Wind Solutions expands U.S. presence | Wind Systems Magazine

For these assets, data-driven insights, monitoring solutions, and expert deployment are crucial for reducing unplanned maintenance and increasing predictable operations. 50 percent of all ...

Amazon : KK-GAL Home Wind Generator, Wind Generator Kit ...

★ High power generation performance: Permanent magnet AC generator, effectively reduces torque, makes the wind wheel and generator perfectly match, and ensures the performance ...

KK Wind Solutions

We introduce the KK SCADA, a new advanced SCADA system. We launch the industry's first SCADA (Supervisory Control and Data Acquisition) system. We launch a new control system, WTC3, which ...

KK Wind Solutions A/S

Designed to meet the requirements in wind turbines and renewable energy application, our controller combines long lifetime and stable operation with industry-leading connectivity.

KK Group

Today, we bring together power, controls, cooling, and monitoring solutions that enable electrification in wind and energy-intensive industries ...
